COMED • Compendium

Die besten Adressen, die wichtigsten Termine

CO'MED ist eine feste Größe unter den complementary-medizinischen Fachverlagen. Als Plattform für Ärzte für Naturheilverfahren, ganzheitlich orientierte Zahnärzte und Heilpraktiker informiert CO'MED seit mehr als 13 Jahren regelmäßig über die aktuellsten Entwicklungen in der Complementary-Medizin.

Für das Konzept einer Integrativen Medizin tritt das CO'MED Fachmagazin als Mittler zwischen so genannter Schulmedizin und Complementary-Medizin ein. Neben seiner modernen äußeren Gestaltung ist CO'MED vor allem mit seiner thematischen Ausrichtung in dieser komplexen Medienlandschaft einzigartig. Dabei kommt der Tatsache, dass CO'MED offizielles Mitteilungsorgan für verschiedene große Verbände und Organisationen ist, besondere Bedeutung zu.

Die dadurch über Jahre geknüpften Verbindungen, das entstandene Netzwerk und viele Kundengespräche haben uns dazu veranlasst, ein neues Print-Produkt zu entwickeln, das den Praxisalltag vereinfacht und das Gebiet der Complementary-Medizin umfassend widerspiegelt.

Das CO'MED Compendium ist als Nachschlagewerk ein besonderer Service für alle in der Complementary-Medizin Tätigen.

Hersteller von Präparaten, Medizintechnik, Praxis- und Bürobedarf, Praxismanagement und Beratung, Kur- und Spezialkliniken und vieles mehr sind im Adressverzeichnis nach Rubriken geordnet. Im Terminkalender sind Tagungen, Messen sowie Angebote der Aus- und Weiterbildung in einer halbjährlichen Gesamtschau so dargestellt, dass die Jahresplanung für die Therapeuten vereinfacht wird.

Das CO'MED Compendium zeigt, wer die Größen der Complementary-Medizin sind und welche Veranstaltungen unserem Fachgebiet Ausdruck verleihen.

Erhältlich ist das Compendium für alle Ärzte, Heilpraktiker und Therapeuten ab März 2009 zum Preis von EUR 19,90.

**Wir möchten Sie herzlich einladen,
Ihren Platz im CO'MED Compendium einzunehmen.**

Greeting

Welcome to the 1st European Congress for Integrative Medicine

Dear colleagues,
Dear congress participants,

On behalf of the Institute for Social Medicine, Epidemiology and Health Economics at the Charité University Medical Center in Berlin, I would like to welcome you to the 1st European Congress and at the same time the 1st German Congress for Integrative Medicine.

Integrative Medicine is to be understood as a bridge between conventional Western medicine and complementary medical procedures (e.g. naturopathy, acupuncture, homeopathy) with the aim of offering the patient the best possible medical care and quality of life. Therefore, the theme of the 1st European Congress for Integrative Medicine is 'The Future of Comprehensive Patient Care'. The objective is to discuss interfaces in Integrative Medicine, to develop synergies, and to exploit opportunities.

Leading physicians such as Prof. Gustav Dobos, Prof. Eckhart G. Hahn, Prof. George Lewith and Prof. Umberto Solimene present their opinions on the combination of conventional and complementary medicine at the Hotel Aquino, Tagungszentrum Katholische Akademie near Charité Campus Mitte. Apart from plenary sessions on the present and future of comprehensive patient care, and prospects of Integrative Medicine in the light of health-care policies, the program offers several parallel sessions focusing on cancer, chronic pain syndromes, atopies, cardiovascular diseases, gastro-intestinal diseases as well as methodology issues. Satellite symposia held by the cooperating medical societies, industry symposia and workshops on some complementary medical procedures will round out the program.

An 'Open Information Day' held on November 9 will give all interested members of the general public an opportunity to meet and question further experts.

I would like to invite you to use the possibilities this innovative congress has to offer and would be very pleased if you took the opportunity to participate in an interesting exchange, to gain new insights, and to shape future patient care together.

I would like to wish all of you successful, amicable, and inspiring days in Berlin.

■ Information for Media Reception

Papers for the 1st European Congress for Integrative Medicine 2008 will not be accepted unless presented in the form of a PowerPoint presentation. Equipment for projection and computers are available in every conference room. Please save your presentation either on a USB stick or on a CD-ROM, and bring it to the conference. Your presentation will be copied to the notebook computer in the conference room before the session starts, and it will be deleted after the event. We cannot give any guarantee for the successful playback of presentations which include embedded videos. In every case, please ask the assistant personnel in the conference room 15 minutes before the start of your session.

■ Information for Poster Authors

Accepted posters will be made available to the congress public in the poster exhibition during the entire event. In addition, a guided poster presentation will be made between 4:00 p.m. and 5:00 p.m. on November 7, 2008. Please be present next to your poster to give explanations and participate in discussions during this time. Please also observe the maximum poster dimensions: 96 cm wide x 150 cm high.

A poster panel of its own will be provided for every poster, showing the poster number as indicated in the program in the upper left-hand corner. Material for fastening posters will be available in a sufficient quantity on site. NO fastening material of your own is allowed. Please hang your poster when the congress starts, and remove it after the congress by the latest at 7:30 p.m. on November 8, 2008. Posters not removed will be kept by the room personnel until the end of the congress day, and will be disposed of after that.

■ Internet Access

Internet access is available to you free of charge in the poster exhibition area. In this area, you can either use your own notebook computer or one of the workstations available. You can obtain further information at the participant registration at any time.

During this satellite meeting the International Society for Complementary Medicine Research (ISCMR, see <http://www.iscmr.org/>) will use the opportunity to launch the European Chapter of ISCMR. The chapter is a regional interest group within ISCMR. It is meant to become a lively and prolific platform for CAM research in Europe. Such an initiative certainly goes along with recent European politics to strengthen the competitiveness of EU member states in the field of international research activities. We would like to invite all persons being actively involved in the exciting field of complementary medicine research to join the satellite meeting and the European Chapter of ISCMR.

Revue Qi – A Palace Fantasy, 7:30 p.m.

Qi – A Palace Fantasy is a musical revue of the most passionate sort. A fast-paced kaleidoscope offering comedy, well-known melodies from pop to classic and Tango performed in an unconventional and powerful way. You have never seen the world's longest chorus line like this. All acts of world class artistic excellence were awarded golden or silver 'Oscars' for artistic performances and are presented in this form for the first time in Europe. Qi – a Palace Fantasy glitters with all the beautiful colors and facets an exciting musical revue can offer.

Place of Event:
Friedrichstadtpalast
Friedrichstraße 107 | 10117 Berlin | Germany

Blue Man Group, 9:00 p.m.

The BLUE MAN GROUP is well-known as a creative team of artists whose highly praised theatre productions and multi-media performances are described by critics as 'funny', 'creating a stunning visual impact', and 'great music'. The three bald-headed 'Blue Men' take their audience on an entertaining, comic, exciting trip offering unique music. Spectators from all over the world have become fans of the BLUE MAN GROUP'S shows performed in Chicago, Las Vegas, London and Toronto. The BLUE MAN GROUP is also known for their extraordinary style of music and their self designed instruments.

■ November 8, 2008

With/Out Tutu (Ballet), 8:00 p.m.

That the ballet has long since broken out of its tight corset of tradition is a well-known fact. However, it is still amazing to see how contemporary choreographers with a classical background conquer new territory. Vladimir Malakhov was able to win over the U.S. choreographer Jodie Gates for this modern three-part ballet. From his classical background, Clark Tippet, formerly principal dancer of the American Ballet Theatre, has also created a series of choreographies that are still part of today's repertoire. His most popular piece 'Max Bruch Violin Concert' will be performed for the first time in Berlin. William Forsythe will be Germany's most popular choreographer of the evening. With 'The Vertiginous Thrill of Exactitude', created in 1996, he examines the appeal of the neo-classical style.
