together with the
3rd German Congress for Integrative Medicine

December 3 – 4, 2010, Berlin

Open Information Day
December 5, 2010, Berlin

www.ecim-congress.org

European Congress
for Integrative Medicine

Greeting

The 3rd European Congress for Integrative Medicine takes place on December 3 – 4, 2010 in Berlin.

The congress offers an innovative platform for medical practitioners and healthcare professionals as well as scientists, sponsors, and health politicians. The aim is to actively influence the development of the best possible health care. Besides international renowned experts in the field of Integrative Medicine medical practitioners from outpatient and inpatient settings are invited to participate in a lively exchange of ideas.

Integrative medicine combines conventional Western medicine with complementary methods of treatment such as naturopathy, homoeopathy, and acupuncture. By overcoming the ideological divides between these systems, Integrative Medicine has the potential to provide the best possible medical care to each individual.

The 2nd European Congress for Integrative Medicine in 2009 was another step to further establish Integrative Medicine. More than 1.000 participants were involved over 3 days in a lively exchange. Excellent speakers, high quality contributions and a fruitful networking of science and medical practice were a prolific condition to continue the congress in the future.

More than 600 scientists from various areas of expertise, medical practitioners, as well as health policy officials from 26 countries were discussing the future of optimal health care, which can essentially be ameliorated by expanding Integrative Medicine. In addition, congress participants and other experts made themselves available to more than 400 patients and the general public, to provide information and to answer questions about treatments in the areas of cardiovascular medicine, chronic pain and other widespread disease.

We are looking forward to welcoming you to the 3rd ECIM Congress in Berlin.

Professor Dr. Stefan N. Willich MPH, MBA
Congress President

Professor Dr. Benno Brinkhaus
Congress President

Dr. Peter Fisher
